

METAL SCULPTURES

Antonino Sciortino

SERAX

The hands of the Milan (Italy)-based designer Antonino Sciortino bring metal to life. Objects shaped from soft iron create a sculpture-like aura. The handcrafted finish emphasizes the soul we recognize in each object. Can

be perfectly integrated in a wide range of interior spaces because of their pure forms and the vintage look and finish.

ANTONINO SCIORTINO

From an early age, the Sicilian Antonino Sciortino could regularly be found in his brother's forge, where he was immersed in the craft of ironwork. He spent the rest of his free time in the dance school where he would lay the foundation for a successful career as a dancer and choreographer. In 2003 he was approaching forty and it became clear that it was time to think about a life outside of dancing.

Time to go back to his roots, back to iron. He moved to Milan where he initially started working on wire, which is the easiest to start with. He immediately took this craft to a higher level.

In addition to everything for his own interior, Antonino also continues to create interior objects and furniture for Serax. From chairs, bistro tables and side tables to baskets and lamps, all his creations are characterised by impeccable ironwork and a vintage look, yet always remain functional.
