L: 36 cm / 14.2", B: 24 cm / 9.4", H: 1 cm / 0.4"

Product description:

The hot water bottle is a luxurious item designed for your personal comfort. The soft hot water bottle covers are made from 100% finest Alpaca material. The fibre is raised and woven in the Alpaca's natural habitat of Northern Bolivia. Alpaca serves as a natural thermostat. It is hypoallergenic, extremely soft, and warm despite its lightweight. The 100% natural Rubber Hot Water Bottle is made from the rubber tree milk sap, a sustainable product made from renewable raw materials. The patterns and natural colours are inspired by the Alpaca's environment in Northern Bolivia.

Designer's thoughts:

"A pure 100% fine material which seems natural to be used directly on your skin. A classic insulated water bottle like this has something pure and honest about it. The idea for the design pattern came naturally in our explorations and travels in Northern Bolivia." - Herman Studio

Finish:

Light grey, brown, dark grey and cream
Dark grey and cream

Made-to-order:

Non-standard configurations (special colors etc.) are available upon request at a minimum order quantity

Product type: Hot water bottle

Environment: Indoor
