Description:

The stylish Sito Cat Litter Box is a modern and discreet place for your cat to take care of their personal business.

While it is a necessary object for most cat owners, finding somewhere to 'hide' the cat litter box has been the perennial problem. MiaCara enlisted Belgian designer Mathias de Ferm to create the perfect solution.

The Sito is a contemporary cat litter box that works as part of your interior décor. Drawing inspiration from MiaCara's signature Bauhaus style, Sito is made with an innovative aluminium casing which makes it strong and functional enough to also allow your cat to perch on top or to be used as a storage area or a place to sit on.

Inside, is a compostable insert that is custom-made to fit the box, offering enough space for your cat to turn, scratch and take care of business, while keeping the litter neatly inside the box and saving you time with cleaning.

Sito is breaking new ground in terms of design, functionality and materials – it is a must-have accessory for any modern cat owner. Sito was awarded the German Design Award Winner 2019.

Refill sets of the insert can be purchased separately. Also separately available seating cushion Stella.
