

AAC 226

PRODUCT FACT SHEET

AAC 226

DESIGN BY HEE WELLING & HAY, 2022

Featuring a four-legged steel frame with slim legs, the AAC 226 has a sleek, elegant expression. Retaining the fundamental idea shared by the AAC family, this model is characterised by a curved shell with a slightly higher back. Designed with optimal functionality in mind, the shell construction offers a deep, generous seat that combines inviting aesthetics with a high level of comfort, whilst the lower armrests provide good support and enable the chair to fit underneath a table or desk. The functional base features angled legs that slant slightly outwards for optimal stability and is available in black powder-coated and chrome finishes, while the post-consumer recycled plastic shell comes in several colour options. The multitude of variants and design combinations give this series great versatility in a wide range of corporate, public, and private contexts.

HIGHLIGHTS

- Part of a multi-functional family of dining and conference chairs, office chairs, bar stools, lounge chairs, tables, an ottoman and a sofa.
- The curved shell has a slightly higher back and a deep generous seat.
- The shell is made from 100% post-consumer recycled plastic and comes in three colours.
- Lower armrests offer good support, whilst enabling the chair to fit underneath a table.
- Available with full upholstery, a standard and a soft quilted version in all standard fabrics and leathers.
- The 4-leg steel base comes in two finishes.
- Other base options are: Moulded plywood base, solid wood base, 4-star swivel base and 5-star swivel base with wheels and gas lift.
- Suitable for a wide variety of private and public environments.
- Qualified for contract use.

4-leg steel base in Ø18 mm bent steel tube.

TRUMPET GLIDER

Plastic. Standard on all variants. Suitable for all floorings that are not too sensitive.

OPTIONS

Felt trumpet gliders for wooden floors.

CONSTRUCTION

4-leg base in Ø18 mm bent steel tube.

COUNTRY OF ORIGIN

Poland

COLOUR & FINISH

Please note that the colour codes are indicative.

	BASE	POWDER COATED BLACK STEEL	CHROMED STEEL
SHELL		 RAL 9005	
BLACK RAL 9005			
MELANGE WHITE NCS S 1002-Y			
MELANGE CREAM NSC S 1502-Y			

The shells consist of 100% recycled post-consumer plastic from household machines.
The use of recycled material means that colours vary slightly from batch to batch.
Marks and irregularities on the surface are a natural part of the material and may occur.

SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise our environmental impact. We optimise the use of sustainable materials such as recycled materials, FSC-certified wood and water-based lacquer, with a growing number of eco-certified products. We have strict regulatory requirements, and the majority of our products are tested to comply with international standards for strength, durability and safety.
