

Grove series

Designed by Anna Karnov & Clara Mahler, Denmark

Grove is a series of flowerpots designed to create small green breathing spaces in your home. The characteristic shape of the pots is designed to give the plants room and space to grow, while beautifully elevating your interior with a warm and handmade expression. A thoughtful design with a natural surface that speaks to the senses and ages gracefully.

Meet the designer

The Danish design duo, Anna Karnov and Clara Mahler, are driven by the creation of a cohesion and connection between their products and the user. Their designs need to be long-lasting as well as being flexible in terms of function and aesthetics. Among other things, the designer duo use the subtlety and ephemerality of time as an element in their design process and as a sustainable and timeless parameter in the end product. That's why they use materials that age gracefully and don't allow themselves to be inspired by fleeting trends. They want their designs to stand the test of time and be able to tell their own story. And this is the idea behind every single design that comes from the hand of the design duo.

Grove Flowerpot Ø48 x H40 cm

Specifications

Country of origin	Height	Weight	Diameter	Recommended use	Producer
Vietnam	40 cm	14.80 kg	48 cm	Indoor	Gran Living A/S
Opening	Maintenance	The parcel's measurements			
34.50 cm	For daily cleaning use a mild, non-abrasive soap. Stone soap can also be used for maintenance and conditioning. Do not use abrasive or ammoniated cleansers or bleaches. We do not recommend using most natural cleansers (which are often citrus based), as they are typically highly acidic. Indoor use: Add the plug and make sure it is properly tightened. For effective drainage and absorption, we recommend placing expanded clay (Leca) at the bottom of the planter, about 3 cm deep. Outdoor use: Ensure proper drainage by allowing free and unobstructed flow from the flowerpot. Do not add the plug in the bottom. In freezing temperatures, ensure there is no standing water inside the planters. For winter storage we recommend covering and raising the item off the ground.	The parcel's measurements 1: 0.15 m ³ , 14.8 kg (D 56.0 cm, W 56.0 cm, H 49.0 cm))
