BOWLER

Shane Schneck's Bowler Table is a compact side table that is ideal for small spaces. The single tube that extends upwards creates a defined profile, which doubles as a functional handle too. The stem, handle and tray are made in powder coated steel, with a solid granite base that provides stability, yet it is still lightweight enough to move around. Bowler comes flat packed and is easy to assemble, making it suitable for all kinds of domestic and corporate environments.
