

Gira

J.M. Massana, J.M. Tremoleda, Mariano Ferrer. 1978
Table Lamps

Black aluminium

Natural aluminium

Brass

A base, an arm, a shade; a square, a line, a cone; steel, brass, aluminium; and the magic of light. Gira sums up the basic components of a lamp. These have been reconfigured based on the traditional flexible reading lamp, to allow flexibility of movement. The design is simple, while versatile in function: featuring a rotating arm and an adjustable shade. It can form localised beams of light for working, reading or writing; in a room, a hotel lobby or an office.

Look at it once, then try and sketch it from memory. The Gira lamp portrays the simplicity and distinct profile of a classic. It is an inherent part of Barcelona's design history. Created in 1978 by Ferrer, Massana and Tremoleda, it was originally produced by Mobles 114—an editing company founded by Massana and Tremoleda. It achieved international acclaim, receiving awards and places in exhibitions all over the world.

However, what truly distinguishes Gira lies in its function—a unique ability to foster an intimate connection between the user, the light and its surroundings. Santa & Cole has reedited this classic of Spanish design with an anodised aluminium shade available in black and natural, and a brass shade.

General description:

Chrome-plated structure.

Cast steel grey base.

Brass, black anodized aluminium, or natural anodised aluminium shades.

Electric cable length: 2,25 m / 88.6"

Approximate weight (unpacked):

2,2 kg / 4.8 lb

Technical information:

Light source included (CE market):

LED bulb: 12 W / 1.521 lm / 2.700K / A++ (subject to updates in LED technology).

E27 - E26 / Max. hgt. 110 mm / 4.3" / Max. power 40 W

Specific bulb diameter: 40 mm / 2.36"

Compatible with bulbs of the Energy efficiency class (E.E.C): A++ ... E.

Suitable only for indoor use.

Always use the light source recommended or equivalent.

Input voltage: 100, 120, 230 Vac.

(50 Hz / 60 Hz). According to destination
