

WELLE

Design by VERNER PANTON

1

Maintenance of Welle:

Fabric: Regular cleaning is important in order to keep the upholstery looking its best and to prolong its life. Dust and dirt wear the textile and also reduce its fire-retardant properties.

Vacuum frequently on medium power, ideally every week. Remove non-greasy stains by carefully dabbing with a lint-free cloth or sponge wrung out in clean warm water. Afterwards, if necessary, clean by dabbing with soapy water or water with a little washing-up liquid added. See formulae. Finally, dab the surface with clean, tepid water.

Notice!

For indoor use only!
