

In Vitro Unplugged

by Philippe Starck , 2020

Lighting device for exterior ground installation. Opalescent diffuser integrated in the head and outer protective glass in transparent borosilicate.

The structural parts are made of die-cast and extruded aluminium treated with a chemical conversion process to protect against atmospheric agents. The body is powder coated with a range of available finishes.

Integrated LED light source with Edge Lighting technology to guarantee perfectly uniform lighting.

Portable version equipped with handle for transport. Dimmer driver 5/100–240 V/50-60 Hz integrated into the body of the device with optical touch sensor on the head to regulate the brightness in 4 steps: 100% – 50% – 3% – OFF. Rechargeable via micro USB-C cable, 120 cm long, guaranteeing continuous lighting up to 6 hours. IP20 charger with EUR, UK, USA interchangeable plugs.

When setting up and maintaining the device, be particularly careful not to damage the powder coating. Damage combined with water may lead to corrosion. Chemical products may damage the corrosion protection.

Mounting	Table/Floor
Environment	Outdoor
Weight	1 Kg
Light sources available	1 x Led Edge Lighting 2,5W 182lm 2700K CRI 90 [i]
Emergency	Without
Dimmer	Included
Voltage	IN 5/100-240V
Power	2,5W
Battery	Yes
Supply included	No

Materials Aluminum, Glass, Silicone
