

Dr. NO & Dr. NA Philippe Starck

These are by now two Kartell classics, noted for their perfect combination of functionality and visual appeal. Dr No is resistant to temperature variations. The chair can be stacked four-high and is characterised by the comfort of its wraparound seat, elegant design, functionality, easiness to clean and by the vast range of chromatic colours on offer. Dr No is accompanied by Dr Na, a small round table offered as a direct complement to the chair. The varnished, scratch resistant top and the tapered central leg in plastic and aluminium allow Dr Na to survive outdoors together with the armchair, forming an ideal double act.

The selection of colours is focussed towards pastel shades. An especially formal effect combined with practical usage and the range of colours make Dr No and Dr Na the best solution for businesses, too.
