

ALFI by JASPER MORRISON

emeco

FIRST LET'S MAKE THINGS THAT LAST.

The Emeco 1006 Navy Chair was first commissioned in the 1940s by the U.S. Navy for use on warships – the contract even specified that it had to be able to withstand torpedo blasts. Today our chairs are still made in the U.S.A., of 80% recycled aluminum, and are made by hand, by Emeco craftsmen using the original 77 step process. The world's best architects and designers collaborate with us to design chairs that are built and guaranteed to last a lifetime.

As we apply what we've practiced in the past, we are looking toward the future. We are on a mission to make a positive impact on the environment. Our goals are to use waste material in our products, use as little energy as possible in our manufacturing, generate a minimum of waste in the process, and build strong, durable, beautiful chairs that last through generations. We've been on the same mission since 1944 and we will continue to search for new ways to recover and utilize discarded materials and make products that last.

ALFI by JASPER MORRISON

Emeco and Morrison together, designed and engineered The Alfi Collection with the conviction that what you *don't see* is as important as what you *do* see. Alfi reflects Emeco and Morrison's common appreciation for the invisible qualities behind simplicity. Made of reclaimed and responsibly selected materials, engineered for comfort and strength, and designed to be humble and timeless, Alfi embodies these hidden values.

Extra-Ordinary

"Alfi was inspired by the woven cane brasserie chairs you see out everywhere on Parisian sidewalks. The Emeco wood filled reclaimed polypropylene seat combines beautifully with the ash wooden leg structures, providing a rich play of materials and finishes. It's one of the most comfortable chairs I have designed." *Jasper Morrison*

Alfi Chair "Green" with high back. Opposite page: Alfi Chair "Sand" with high back.

Alfi Counter Stool "Green" with low back, Alfi Barstool "Dark Brown" with high back.
Opposite page: Alfi Chair "Red" with low back, Alfi Chair "Dark Grey" with high back.

The Alfi Collection is offered with low or high seat backs. Seats may be selected from the subtle palette of earth tones in dark brown, green, sand, red and dark grey. The base is made of ash wood.

With Alfi, Emeco continues its exploration of using reclaimed and recycled waste to make long-lasting products. Alfi seats are made of 100% reclaimed post-industrial waste – 92.5% polypropylene combined with 7.5% wood fiber.

Alfi Chair "Sand" with high back.

Alfi Armchair "Grey".

Alfi Armchair "Sand".

Alfi Bench "Green" with high backs. Opposite page: Alfi Bench "Sand" with high backs.

The Alfi Bench employs cast iron to integrate the seat and frame, thus securing stability and strength to the bench. Alfi seats may be selected with low or high backs in any of the 5 colors.
