TR Bulb, Suspension Frame

Product Type

Suspension Frame

Production Process

Designed for longevity, TR Bulb uses LED technology, which, with normal use, should last many years. The globe is constructed from white opal glass, and the core structure is made from aluminium to draw heat away from the LED, allowing the bulb to run at its optimum temperature. Accessory fittings are made from marble and steel.

Environment

Indoor

Dimensions (cm / in)

H: 45 cm / 17,7"

W: 20 cm / 7,9"

L: 125 cm / 49,2"

Materials

Opal Glass, Powder Coated Steel

Colours

Black

Voltage (V)

220 - 240V

Light source & Energi efficiency class

E27, MAX 24 W, A+

Certifications

IP20

Cord length / diameter (cm / in)

300 cm / 118,1"

Care Instructions

Use a soft dry cloth to clean. Do not use any cleaners with chemicals or harsh abrasives.

Avoid using water.

TR Bulb is a clever solution for modern city living, inspired by the way people are increasingly becoming urban nomads, moving between cities and countries to pursue careers and life experiences. The first collaboration between MENU and Tim Rundle, TR Bulb is designed to be taken from apartment to apartment – installed by simply screwing it into the pendant sockets hanging in ceilings all over the world, no electrical expertise required. The dimmable LED bulb, with its elegant, spherical form hides the lamp fitting, while the opal glass diffuser creates an even, harmonious glow, preventing glare. The accessories in the series are likewise driven by the need for portability – so the wall bracket can either be wired in, or hung from a nail like a picture, with a cable plugged into a wall socket.

About the Designer

Tim Rundle Studio is a London based industrial design practice working in the field of product design, as well as interiors and consultancy. Originally from New Zealand, prior to establishing his studio in 2015, Tim led the product design teams at Tom Dixon and Conran & Partners. 'A great product should look as good and work as well in the real world as it does in a photoshoot,' he tells us. 'It should positively but quietly add to the atmosphere of a real space without shouting for attention.'
