A NEW MEMBER OF THE WORKSHOP FAMILY: THE WORKSHOP COFFEE TABLE

The Workshop Coffee Table by Danish designer Cecilie Manz adds a new perspective to Scandinavian design through a focal emphasis on traditional materiality, craftsmanship and detailing.

Extending the expression of the Workshop Chair that was introduced in the spring of 2017, the Workshop Coffee Table translates the understated elements of Scandinavian craftsmanship into a simple design. Here, the seamless integration of the design's table top and legs echoes the refined design language of the Scandinavian design heritage.

With an appearance that is at once light and elegant, the Workshop Coffee Table fits perfectly into any living room, serving as a traditional coffee table as well as side table. In addition to its obvious function, the design can also be placed in the hallway to act as a counter object.

CECILIE MANZ ON THE DESIGN

"The Workshop Coffee Table is a design that is pared down to the essence. Deliberately simple in its expression, the table has an almost archetypical appearance that comes from a wish to make as little noise as possible—the details and joints are doing all the talking."
