AFTERROOM COAT HANGER

Designed by *Afterroom*

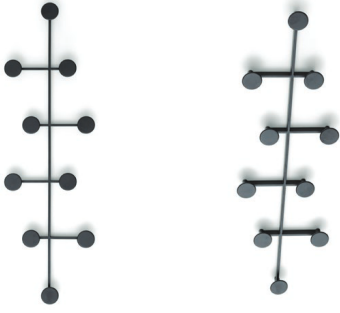

New and elevated line extensions update the Afterroom Collection.

The Afterroom Coat Hanger, Large redefines storage solutions with an increased number of dots and extended distances between them—an ideal solution for hanging bulkier jackets and coats in home hallways and professional spaces. Crafted from powder-coated metal, the design ensures durability while contributing a sleek and modern aesthetic to any space. Easily fixed to a wall, horizontally or vertically, the coat hanger offers a seamless and clean aesthetic by concealing all screws, enhancing the minimalist design and placing focus firmly on functionality and form.

The new Afterroom Coat Hanger, Large launch online and at Audio Copenhagen retailers on 28. February 2024.

About the Designer

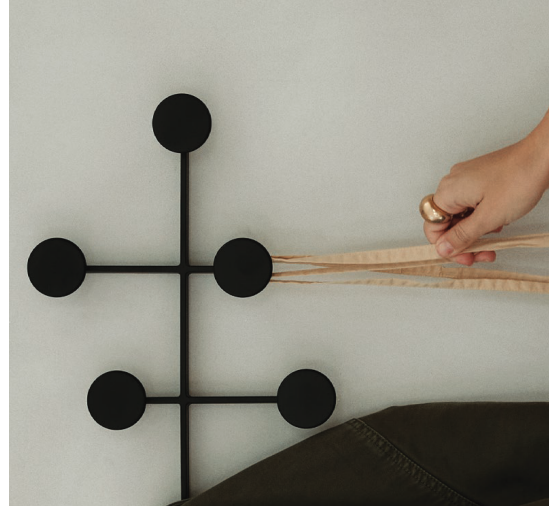

Founded and directed by Hung-Ming Chen and Chen-Yen Wei, Afterroom Studio's mission is simply to create beautiful products which will increase in value with the passage of time—design with which one can grow old. The Taiwanese-born designing duo began their Stockholm-based design studio with the notion of creating modern objects that would only grow more beautiful over time. "Beyond their own work, they see their studio as a launching point for designers around the world who share their philosophy. The inspiration derives from an intriguing interest in forms, senses, proportions, materials and cultures.
