- D - Spacer with eight holes x 2
- E - Screws x 28
- F - Allen key

Safety precautions

- Dispose of plastic bag from packaging and do not allow children to play with it.
- The coat stand is only intended for indoor use.

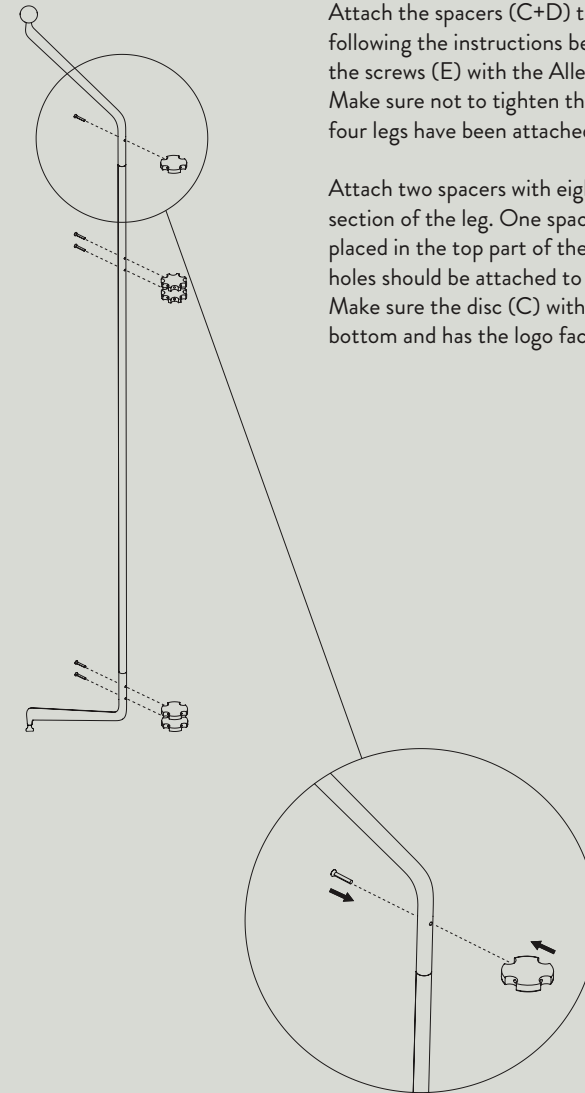

Cleaning instructions

Powder coated metal

It is recommended only to use a soft dry cloth to clean powder coated surfaces but in case more severe cleaning is necessary, a soft cloth wrung in lukewarm water can be carefully applied. Always dry immediately after cleaning with a soft dry cloth. Avoid using abrasive cleaning agents or aggressive cleaning detergents on powder coated surfaces as this may permanently damage the surface.

Lacquered wood

For daily care it is recommended to dust the furniture with a soft cloth. Lacquered wood can be cleaned with a soft cloth wrung in a mild solution of lukewarm water and a universal cleaning detergent. Always follow the wood grains and always dry with a soft dry cloth immediately after cleaning. Avoid use of abrasive cleaning agents and aggressive cleaning detergents as this will damage the surface of the lacquered wood. Avoid placing wooden furniture in direct sunlight, excessive heat or humidity.

Step 1

Attach the spacers (C+D) to one of the legs (A) by following the instructions below. This is done by fastening the screws (E) with the Allen key (F). Make sure not to tighten the screws completely until all four legs have been attached.

Attach two spacers with eight holes (D) in the middle section of the leg. One spacer with four holes (C) is placed in the top part of the leg, and two spacers with four holes should be attached to the bottom part as shown. Make sure the disc (C) with the logo on is placed at the bottom and has the logo facing downwards.

Step 2

Place another leg (A) and fasten the screws (E) with the Allen key (F).

Repeat for the remaining legs.

Step 3

Attach the hooks (B) on the spacers in the middle by fastening the screws (E) with the Allen key (F).

NB: If the coat stand is unstable due to uneven floor, please adjust it using the adjustable gliders.
