**Description:**

Cesto is a minimalist felt basket that double functions as a cat bed. Even the most finicky feline will love to curl up in the circular basket. The soft material surrounds your cat in warmth and comfort and gives her a sense of security. For an even more snuggly sleeping experience, add a MiaCara cat blanket or the Lana faux fur cushion.

If not occupied by your cat, the multifunctional basket is also the perfect storage container for anything from cat toys to blankets to magazines. Available in four muted colours, Cesto blends in naturally with any refined contemporary interior.

Each basket is moulded from felt made of recycled fibers. The sustainable material holds it's shape and has a soft yet textural look and feel.
